- Sympathetic Resonance: This is the default choice, and is recommended. You can use a variety of instruments with it and get sounds that are not influenced by the key. - Melodic Lead: You can play the instrument with a one-voice legato style, or you can send it to Harmonic resonance, so you can play an ornamented style. - Drone Layer: Drone mode is easy with this instrument. You can easily play a drone in the instrument, as well as rhythm support such as arp, theremin, slide whistle and more. The drone is low-key, with deep syncopation. The polyphony is not restricted, so you can play at a maximum of 12 voices polyphony. - Options: You can change the key of the instrument when the instrument is run. The key will always be the same as the root key of the instruments in this sound set. You can choose the sound set you want to run. - Troubleshooting: Please email us at: email at dashsignature dot com Act of Breathing is very unique multi sonic embolic instrument. EMM stands for Ethnic Music Manufacturer, but EMM Knagalis stands for Ethnic Music Melodic Knagalis - the author of this product is François Kurkard (francisgurk.fr). EMM Knagalis is a specialized and multi-featured VSTi sample player, modeled around the structural elements of Sitar, the famous Indian lute. But its sound set also includes many other ethnic stringed instruments, as well as percussive and melodic instruments from the world stage. Instruments like Turkish Lute, Mbira (thumb piano), Santur, Shamisen, Japanese Zō, and Peruvian Huayhuas are just a few examples. And there's even a bagpipe, a wind instrument, an instrument for which EMM Knagalis is ideal. EMM Knagalis brings these instruments to life. The EMM Knagalis structure includes three sample layers: Lead sound (monophonic), Sympathetic emulation sound (polyphonic), and Drone sound (monophonic). There is also a "Noise" layer for guitars and vocals. We have taken advantage of the advanced layers in EMM to provide many acoustic functions including extra noise attack. Such characteristic details essence these strange beautiful instruments. With system-ethnic flavored hybrids are possible too. Knagalis library is always growing new sounds from original upgrades will be available at dashsignature.com The "Root and Scale" feature allows the easiest implementation of ethnic scales and micro tuning ever seen in a VSTi. You choose the key you are going to play, choose a typical intonation (such as raga, African, bagpipe and more), and you are ready for a new exotic sonic adventure. Here are some key features of "EMM Knagalis": · Changeable sound set for Lead, Sympathetic Resonance and Drone layers. Using a custom DSP sample bank. · Three types of Mono performance, with pitch envelope and portamento. · Stereo Flanger and Stereo Reverb effects. · Micro Tuning by means of an easy "one click" menu, giving you access to any custom and ethnic tuning you wish. Lead: · One-Voice Multisample player. · Mono Mode: Legato, Retrigger, Alterne - 3 options to suit the playing style of many different ethnic instruments. · Pitch Envelope: Offset, Time, Velocity Sensitivity
